

# SAN MARTINO

SPARKLING HYPERMINERAL WATER

Sourced from ancient volcanic depths of the blue zone island of Sardinia, Italy

## THE HYPERMINERAL WATER

### NATURALLY SPARKLING WITH AN EXPLOSIVE TASTE

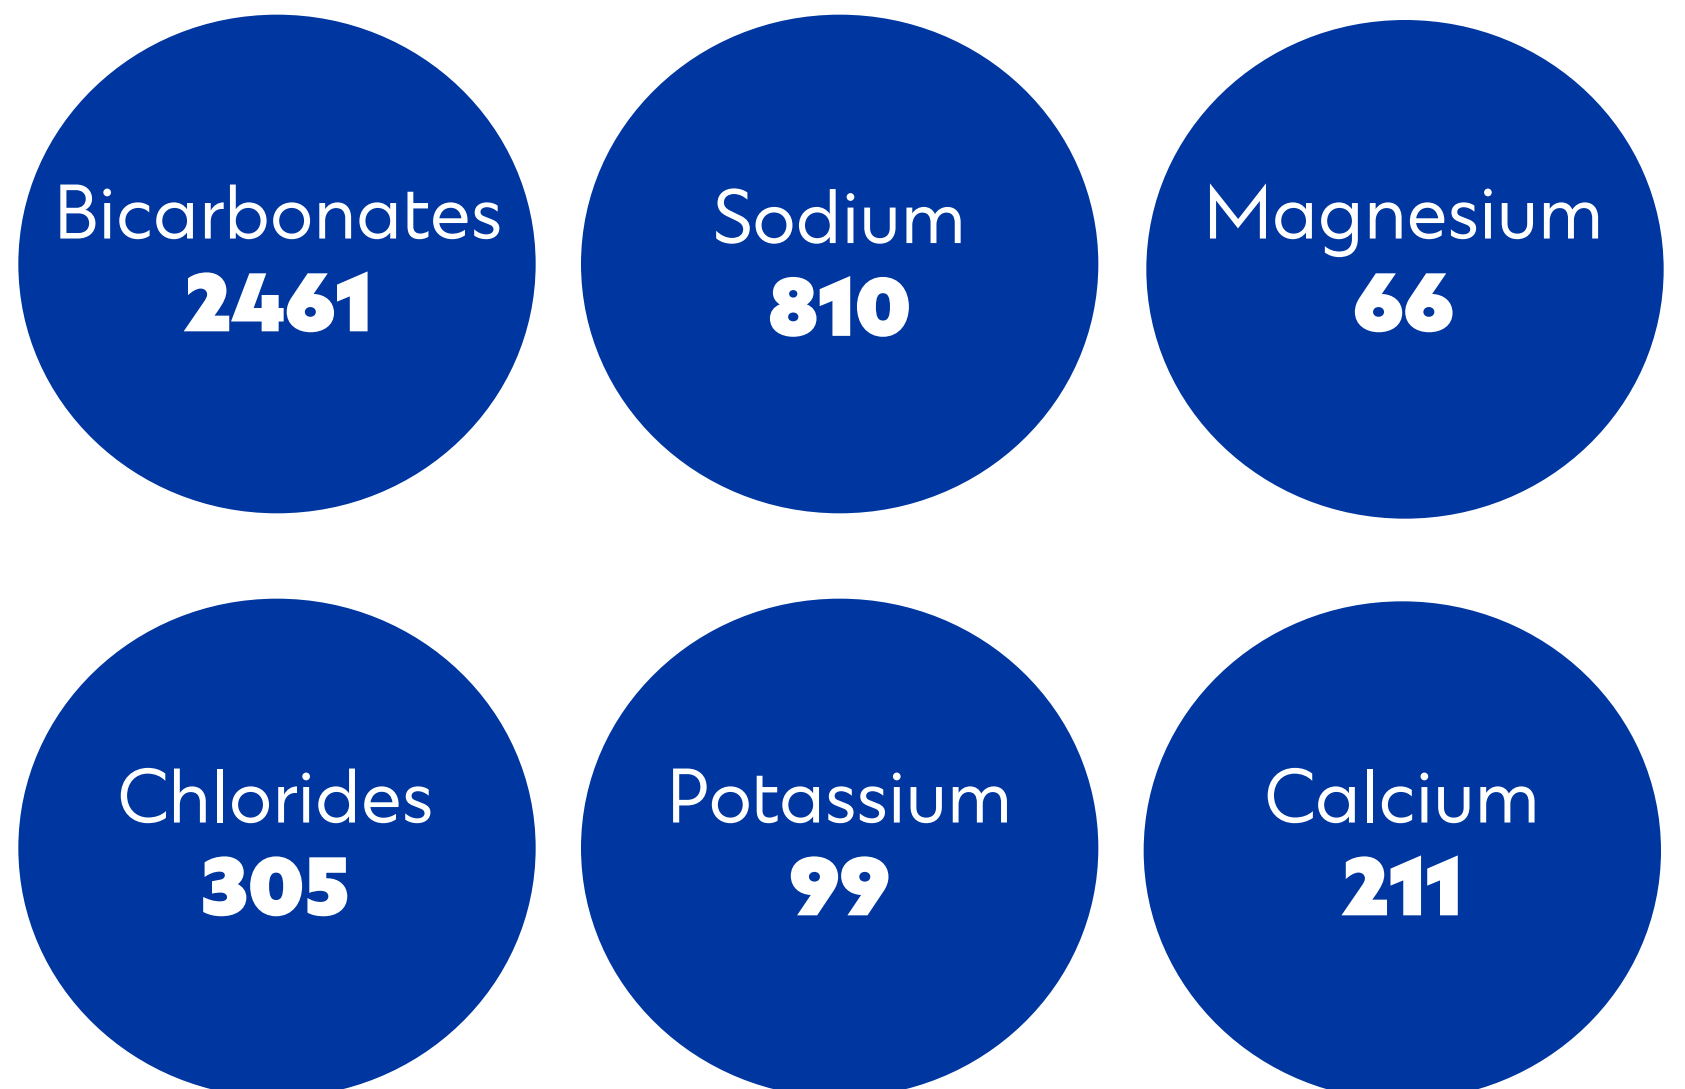

### Nurturing the Natural Power of San Martino

Among the few in the world classified as “rich in mineral salts”, San Martino hypermineral water is perfected by Nature.

From an ancient volcanic basin of 1,000 mt deep and in a cycle of 50 years the water is slowly filtered by volcanic rocks, and returns to surface with its own gas and a unique mineral composition.

San Martino is well enriched with an outstanding flavor and nutritional properties.

## At the Table and after Sport

Its fine and persistent bead makes this superior table water a perfect pairing for raw seafood as well as roasted, braised and grilled entrees.

Its natural sodium bicarbonate content, **among the highest in the world, promotes digestion** and leaves you feeling pleasantly light after a meal.

The only water comparable to a **hydro-saline integrator**.

Calcium, magnesium and potassium, together with its bicarbonates, make it ideal for those who play sports. San Martino water strongly contributes to **replenishing the minerals** both professional athletes and amateurs inevitably lose during physical activity.

## Excellent for tastings

Its bicarbonates cleanse the taste buds, enabling them to fully savor the flavor notes of wines and spirits. San Martino water is ideal for tasting coffees, herbed cheeses, dried fruit-based desserts, and any food best tasted on a clean palate.

# **SAN MARTINO ATTRIBUTES**

Established in **1902**

Scientifically proven to facilitate  
**DIGESTION**

Cleansing the tasting buds **ENHANCE**  
**TASTING** notes of wines and spirits

Used by bartenders in **MIXOLOGY**

NO gastrointestinal BLOATING thanks  
to its **NATURAL SPARKLING**

Thanks to its extraordinary MINERALS  
it's **REFRESHING**

It's **UNIQUE** due to its journey  
through the volcanic rocks over a 50  
years cycle in a basin more than 1000  
meters deep.

## Scientific Studies

A self-controlled pilot study was recently published on the authoritative Science Direct website, Biomedicine & Pharmacotherapy section. This study attests that after a short period of consumption, San Martino water can have very positive - metabolic effects on people's health.

The complete original study is here:

## Accolades

San Martino water won several gold medals and awards in national and international competitions.

To date, San Martino water **is the first Italian product to have received the “Diamond” prestige award** from the International Taste and Quality Institute of Brussels, judged by a panel composed of 130 chefs, sommeliers, and experts.

For 9 consecutive years, it achieved a perfect “Three Stars” score at the Superior Taste Awards, the most prestigious quality competition for food and beverages. Its unique characteristics have led experts and connoisseurs to describe it as **“the champagne of mineral waters”**.
